

## **Customer Profile**

Norfolk Dredging Company

**METAL TRADES, INC.**

## **DOUBLE HULL OPA-90 COMPLIANT FUEL BARGE**

Metal Trades, Inc. (Hollywood, SC) has completed its second double-hull tank barge for Norfolk Dredging Company. The 132' x 30' x 9' barge is designed to carry 2,500 barrels of fuel oil for servicing dredging vessels. Norfolk Dredging Company had both barges built in order to comply with OPA 90 requirements.

"I've been in this business for over 30 years, and I can say that Metal Trades' builds a fine barge with a high level of quality and workmanship that is among the best I've seen in the industry."

Rusty Corbin  
President & CEO

"Metal Trades is proud of this accomplishment and extremely pleased to have Norfolk Dredging Company as a key long term customer. This is our first double hull barge designed to meet OPA-90 requirements and we look forward to building many more as we continue to make significant investments in our facility to help meet customer demand."
